INDEPENDENT INNOVATION

WHO WE ARE

Independent Innovation Gen. Cont. Co. LLC (IIC) founded in 2010 by Eng. Jaber Al-Marri, a Saudi national with a vision to drive excellence in industrial support services across the Kingdom of Saudi Arabia. Since its establishment, IIC has grown into one of the most trusted and forward-looking companies in the region, delivering integrated solutions across multiple sectors.

Reliability
(Track Record)

Operating at the core of the Kingdom's industrial development, IIC is a leading provider of comprehensive project execution and specialized industrial services. Our capabilities span across civil, mechanical, electrical, and instrumentation disciplines—delivering excellence in complex construction, plant maintenance, renovation, road marking projects etc . We are proficient in scaffolding erection, site preparation, mechanical erection, fabrication, and all types of welding services. Our team is also well-versed in handling shutdown and turnaround activities, including critical operations such as reactor, vessel, and tank blinding/de-blinding, bolt torquing, and tensioning—all carried out in strict compliance with safety and quality standards. Additionally, we support Lumpsum Turnkey (LSTK) project execution with tailored solutions designed to meet project-specific demands.

High Quality

Beyond core industrial services, IIC offers a robust suite of support operations essential to project success. This includes the rental of industrial equipment, provision of skilled manpower, and the supply of high-quality materials. Our expertise extends to heavy lifting operations, hydro jetting, transportation and logistics support, and general plant support services. With a commitment to operational excellence and safety, IIC continues to be a trusted partner in delivering integrated industrial solutions across the Kingdom.

Trustworthy
(Transparent)

Over the years, we have earned the trust of industry giants including SAUDI ARAMCO, SABIC, MA'ADEN, SAUDI ELECTRICITY COMPANY, TASNEE, CHEMANOL, SIPCHEM, SATORP, Dammam Airport Company - DACO and many others—thanks to our consistent dedication, experienced workforce, and client-centric approach.

Known (Direct)
Local Presence

Our strength lies in our professionally trained and highly competent team, supported by a leadership that remains responsive to industry advancements and committed to aligning IIC with the ever-evolving demands of the modern world. Through innovation, integrity, and operational excellence, we continue to play a vital role in advancing the Kingdom's industrial development and Vision 2030 goals.

VISION

"To lead the transformation of Saudi Arabia's industrial landscape through innovation, sustainability, and excellence—setting global standards in quality, reliability, and ethics while empowering communities and shaping the future."

MISSION

"Our mission is to deliver value-driven projects that exceed expectations through quality, integrity, and sustainability. We build lasting partnerships by embracing innovation, continuous improvement, and ethical excellence."

OUR CORE VALUES

Professionalism and Ethics

We pride ourselves for our technical competence, bound with honesty, punctuality and spirit of service.

Customer Satisfaction

Consistent efforts gelled well with cost effective and innovative techniques, we strive to make the client's perception into a proud reality, with an optimistic attitude to go an extra mile to achieve so. We strive to remain dependable and loyal, as we always have.

Teamwork

We believe that teamwork makes the dream work. The synergy between the employers and employees has always been a boon resulting in impeccable performance aided by respect and acceptance of each members contribution of thought or action.

Safety and Quality Service

Constantly focusing on this as our top priority, we render our best service with the expertise of our highly skilled and competent employees through attention to detail, impressive planning, effective, efficient, systemic and safety-controlled implementation of this planning.

HSE POLICY

At Independent Innovation Cont. LLC (IIC), health, safety, and environmental responsibility are at the heart of how we operate. We are committed to achieving zero harm across all our operations while preserving the environment and ensuring the well-being of our workforce, clients, and the communities we serve.

In alignment with ISO 45001:2018 and Saudi Arabia's regulatory and client-specific standards (including those of Saudi Aramco, SABIC, and Royal Commission), we drive a proactive HSE culture rooted in leadership, innovation, and accountability.

Our HSE Commitments:

- Maintain a zero-incident workplace through risk identification, control, and continuous awareness.
- Implement environmentally responsible solutions using sustainable materials and methods.
- Ensure full compliance with local laws, international HSE regulations, and project-specific client requirements.
- Use advanced monitoring tools and regular audits to enhance HSE performance and transparency.
- Conduct structured HSE training, drills, and inductions for employees and subcontractors.
- Investigate all incidents and near misses thoroughly to prevent recurrence.
- Promote active participation of all personnel in identifying hazards and improving safe work practices.

QUALITY POLICY

At IIC, we are dedicated to delivering superior-quality services that meet the evolving needs of Saudi Arabia's industrial and infrastructure sectors. Our focus on innovation, compliance, and client satisfaction forms the backbone of our operations.

We maintain a certified ISO 9001:2015 Quality Management System and follow strict QA/QC procedures in line with the expectations of clients like Aramco, SABIC, Ma'aden, SEC, and SWCC.

Our Quality Commitments:

- Ensure projects are delivered right the first time, with precision and reliability.
- Apply data-driven QA/QC strategies to reduce defects and maximize value.
- Align fully with ISO 9001:2015 and client-specific quality procedures and audits.
- Continuously train personnel to uphold a culture of excellence and technical competence.
- Drive improvement through innovation in fabrication, construction, and materials handling.
- Build lasting client relationships through transparency, consistent performance, and value-added delivery.

Message

from the CEO

At Independent Innovation Company (IIC), we've built more than just a business—we've built long-term partnerships grounded in trust, performance, and shared success. Every achievement we've made over the years is the result of the hard work, commitment, and collaboration of our remarkable team and trusted stakeholders.

Since our inception in 2010, IIC has grown into one of the Kingdom of Saudi Arabia's most dependable providers of industrial services. From engineering consultants to human resource requirement for shut down works, maintenance, fabrication, and construction projects and heavy equipment rentals, our reputation for delivering reliable, high-quality solutions continues to grow.

We believe in working alongside our clients—not just as a vendor, but as a strategic ally—because “your trusted partner in delivering industrial excellence” is more than a motto for us; it's the way we operate, every day, on every project.

Our dedication to quality, safety, and operational efficiency has earned us repeated trust from major industry leaders, and our forward-thinking mindset ensures we are always prepared to meet tomorrow's challenges. As CEO, I remain committed to fostering innovation, developing our people, and expanding our capabilities to support the Kingdom's ambitious industrial goals.

To our clients, team members, and partners—thank you for being an essential part of our journey. I am confident that with your continued support, IIC will continue to grow, lead, and redefine standards across the industry.

 **Mr. Ansaf Ali**
Chief Executive Officer – IIC

Message

from the President

At Independent Innovation Company (IIC), we have always believed that our people are our greatest strength. Since the company's founding in 2010, our mission has been clear: to provide world-class industrial services while creating a culture of professionalism, innovation, and excellence.

Over the years, IIC has earned the trust of major organizations across the Kingdom by delivering results with integrity, efficiency, and technical excellence. Our proven track record includes working with leading names such as Saudi Aramco, SABIC, Ma'aden, Saudi Electricity Company, TASNEE, SIPCHEM, Dammam Airport Company - DACO and others—testament to our consistent performance and reliable service delivery.

We owe our success to the dedication of our loyal employees, our collaborative partners, and the trust placed in us by our clients. It is through this shared commitment that we've been able to meet and exceed expectations across all sectors we serve.

As we align our efforts with Saudi Vision 2030, IIC remains focused on developing local talent, embracing sustainable practices, and expanding our service capabilities. The journey of IIC is far from over—and I am confident that with continued teamwork and determination, we will scale even greater heights in the years ahead.

 **Eng. Jaber Al-Marri**

Our Distributorship

Authorized Distributor of Christof Group (Austria)

IIC is proud to be the Authorized Distributor of Christof Group, a globally recognized Austrian manufacturer of reactors, pressure vessels, heat exchangers, and industrial boilers. Through this distributorship, IIC brings world-class European manufacturing capability directly to Saudi Arabia - pairing Christof Group's engineering and fabrication excellence with IIC's local execution strength. Christof Group manufactures; IIC delivers, installs, and maintains - one integrated solution for the Kingdom's oil & gas, petrochemical, and energy industries

CHRISTOF GROUP MANUFACTURING COMPANIES

**ACE****Apparatebau Construction & Engineering**

World market leader in polymer reactors, columns & heat exchangers

**APB****Apparatebau Schweißtechnik**

Nitric acid equipment, melamine reactors & high-pressure piping

**MOG****Marghera Oil & Gas**

Pressure vessels & heat exchangers for refineries & fertilizing plants

**SBN****Schoeller-Bleckmann Nitec**

World leader in high-pressure equipment for urea & ammonia synthesis

**ACEM****ACE Metalna**

Precision machining of large components for pressure vessel industries

INDUSTRIAL SUPPORT & MAINTENANCE SERVICES

Independent Innovation Company (IIC) provides comprehensive industrial support and maintenance services designed to ensure continuous, safe, and efficient operations across industrial plants, refineries, and chemical facilities in the Kingdom of Saudi Arabia. With deep experience in shutdown, turnaround, and routine maintenance activities, we support our clients through reliable manpower, specialized equipment, and precision services.

OUR SPECIALIZED INDUSTRIAL SERVICES INCLUDE:

- Hydro Jetting Services
- Blinding/De-blinding of Reactors, Vessels & Tanks
- Column Internals Removal & Installation
- Valve Installation & Dismantling
- Bolt Torquing and Tensioning
- Chemical Cleaning Services
- Heat Exchanger Maintenance & Repair
- Flange Facing and In-Site Machining
- Fin Fan Cooler Cleaning & Tube Repairs
- Rig Cleaning Facilities (Onshore & Offshore)
- Calibration & Inspection Services
- Sandblasting & Industrial Painting Services
- Scaffolding Erection & Dismantling
- Flare Top Inspection
- Rope Access work
- Conveyor belt repair and maintenance

INDEPENDENT INNOVATION

Independent Innovation Company (IIC) provides a range of specialized industrial support services to enhance operational safety, efficiency, and asset longevity across onshore and offshore facilities. Our experienced teams deliver these services ensuring the highest level of HSE, quality, and reliability across all phases of the project lifecycle — from plant maintenance to shutdowns and remote field operations.

OUR INDUSTRIAL SUPPORT SERVICES INCLUDE:

- Skilled Manpower Support
- Heavy & Light Equipment Rental
- Power Equipment & Tower Light Rentals
- Industrial Material Supply
- Portable Toilet Units
- Transportation & Waste Management
- Oil & Diesel Filling Services
- Catalyst Loading / Unloading

INDUSTRIAL SUPPORT & MAINTENANCE SERVICES

Scaffolding Erection & Dismantling

IIC provides comprehensive scaffolding solutions for construction, maintenance, and shutdown/turnaround projects across the Kingdom of Saudi Arabia - engineered for safe, compliant, and efficient access at every height and configuration, onshore and offshore.

- **Tube & Coupler Scaffolding**
Independent, putlog & birdcage configurations for complex access needs
- **System Scaffolding (Cuplock/Ringlock)**
Rapid-assembly modular access for tight turnaround schedules
- **Suspended & Cantilever Scaffolds**
Engineered access for elevated and hard-to-reach work areas
- **Scaffold Design & Load Calculation**
Engineered drawings and load calculations for critical structures
- **Inspection & Tagging**
Daily/weekly inspection with color-coded tagging systems
- **Safe Dismantling & Material Recovery**
Systematic dismantling, handling & inventory control
- **Access Platforms for Shutdowns & Turnarounds**
Custom-built platforms supporting plant maintenance
- **Trained Scaffolders & Supervisors**
Experienced crews working to strict HSE and quality standards

Supporting shutdown, turnaround & maintenance projects across Saudi Aramco, SABIC and major EPC contractors.

INDUSTRIAL SUPPORT & MAINTENANCE SERVICES

Conveyor Belt Repair & Maintenance

IIC delivers complete conveyor belt maintenance and repair services to maximize uptime, safety, and reliability for bulk material handling systems across refineries, petrochemical plants, and industrial processing facilities.

- **Belt Inspection & Condition Assessment**
Routine visual and technical inspection of belts, idlers & pulleys
- **Belt Splicing & Repair**
Hot & cold vulcanized splicing plus mechanical fastening for all belt types
- **Idler, Roller & Pulley Replacement**
Replacement of worn components to reduce unplanned downtime
- **Alignment & Tracking Correction**
Precision alignment to prevent belt wander and premature wear
- **Belt Cleaning Systems**
Installation & upkeep of scrapers and belt cleaning systems
- **Structural & Frame Repairs**
Repair of conveyor frames, supports, guarding & chutes
- **Preventive Maintenance Programs**
Scheduled inspection & lubrication programs to maximize uptime
- **Emergency Breakdown Support**
Rapid-response repair services to minimize production loss

Supporting continuous bulk-material handling operations across refineries, petrochemical plants & mining facilities

MRO SUPPLY & ENGINEERING SOLUTIONS

Reactors & Pressure Vessels

World-Class Manufacturing Capabilities IIC, delivers complete reactor and pressure vessel engineering, fabrication, and supply to Saudi Arabia's oil & gas and petrochemical industries — meeting the most demanding ASME, PED, and Saudi Aramco standards.

- Design & Engineering per ASME VIII, PED, TEMA
- Catalytic, Fixed-Bed & Hydroprocessing Reactors
- High-Pressure Vessels & Separators
- Coke Drums, Regenerators & Absorber Columns
- High-End Alloy Fabrication (Inconel, Duplex, Titanium)
- Cladding & Weld Overlay Technology
- Third-party Inspection & ASME Stamp Certification

Supplying to Saudi Aramco, SABIC, YASREF, SATORP, SIPCHEM & Major EPC Contractors

Heat Exchangers

IIC Group designs, manufactures, and delivers all major types of heat exchangers for critical oil & gas, refining, and petrochemical applications —built to TEMA, ASME, PED, and client-specific standards.

- **Shell & Tube Heat Exchangers**
Fixed, U-tube, Floating Head, Kettle Reboilers
- **Plate Heat Exchangers**
Gasketed, Welded & Semi-Welded Plate Units
- **Air-Cooled Heat Exchangers**
Fin Fan Coolers, Forced & Induced Draft
- **Spiral Heat Exchangers**
For slurries, viscous fluids & fouling services
- **Cladded & Alloy Units**
Titanium, Hastelloy, Duplex, Inconel construction
- **Double-Pipe Exchangers**
High-pressure, compact applications

Boilers & Waste Heat Recovery

IIC offers complete industrial boiler systems and waste heat recovery solutions engineered for Saudi Arabia's energy-intensive industrial sector. From design through commissioning, we deliver reliable, efficient steam and thermal energy systems.

- **Fire-Tube Boilers**
Industrial steam generation, heating & process applications
- **Water-Tube Boilers**
High-pressure, high-capacity steam for power & refining
- **Waste Heat Recovery Units**
HRSG systems for gas turbines & process offgas
- **Heat Recovery Steam Gen.**
Combined cycle power plant integration (HRSG)
- **Thermal Fluid Heaters**
High-temperature oil circulation heating systems
- **Boiler House Packages**
Complete integrated boiler room EPC packages

Steam Traps Survey & Replacement

IIC provides comprehensive steam trap survey, testing, replacement, and steam system optimization services to improve energy efficiency, reduce steam losses, and enhance plant reliability across refineries, petrochemical plants, power stations, and industrial facilities. Our certified specialists utilize advanced diagnostic technologies to identify faulty steam traps and implement cost-effective solutions that maximize system performance.

- **Steam Trap Survey & Inspection**
Ultrasonic and thermal condition assessment
- **Testing & Performance Analysis**
Leak detection and efficiency evaluation
- **Replacement & Upgrades**
Installation of mechanical, thermodynamic & thermostatic steam traps
- **Steam System Energy Audits**
Steam loss analysis and energy-saving recommendations
- **Preventive Maintenance**
Routine inspection, tagging, and lifecycle management
- **Condensate Recovery Optimization**
Improved condensate return and reduced operating costs
- **Reporting & Asset Management**
Detailed reports with maintenance recommendations

Turbines, Pumps and Compressor

IIC delivers complete rotating equipment solutions for the oil & gas, petrochemical, power, and industrial sectors. Through our experienced engineering teams and global technology partners, we provide supply, installation, maintenance, overhauls, and performance optimization for critical rotating equipment—ensuring maximum reliability, efficiency, and plant availability.

- **Steam & Gas Turbines**
Supply, installation, overhaul & upgrades
- **Industrial Pumps**
Centrifugal, API 610, multistage & positive displacement pumps
- **Process & Gas Compressors**
Centrifugal, reciprocating, screw & rotary compressors
- **Rotating Equipment Overhaul**
Inspection, refurbishment, balancing & alignment
- **Installation & Commissioning**
Installation, testing, commissioning & troubleshooting
- **Condition Monitoring**
Vibration analysis, thermography & predictive maintenance
- **Mechanical Seals & Auxiliaries**
Seal systems, bearings & lubrication units

Complete Piping Systems

IIC deliver complete process piping systems for refineries, petrochemical plants, power stations, and industrial facilities — from engineering and material supply through fabrication, installation, and testing.

- Process Piping Design & Engineering (ASME B31.3)
- High-Pressure & High-Temperature Piping Systems
- Alloy Piping (SS, Duplex, Inconel, Titanium)
- Spool Fabrication & Field Installation
- Valves, Fittings & Piping Materials Supply
- Pipe Supports, Expansion Joints & Stress Analysis
- Hydro Testing, Flushing & Commissioning
- Modular Skid Packages (MOG EPC Skids)

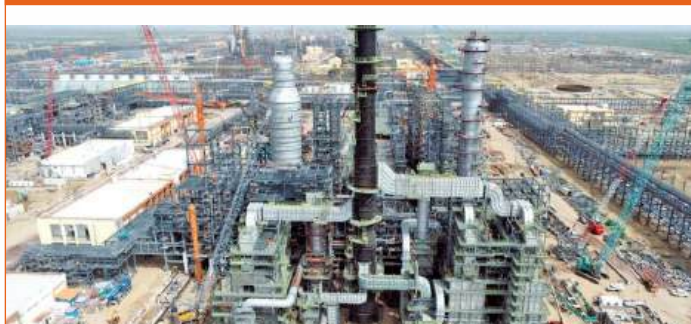

EPC & Industrial Plant Constructions

INDUSTRIAL PLANT CONSTRUCTION

- Industrial Plant Construction & Erection
- Mechanical Plant Maintenance
- Shutdown & Turnaround Management
- Revamping & Debottlenecking Projects
- On-site Welding & Fabrication

EPC & PLANT DEVELOPMENT

- Full EPC (Engineering, Procurement & Construction)
- Greenfield & Brownfield Plant Development
- Industrial Plant Layout & Design
- Project Management & Control
- Procurement Management & Logistics

MECHANICAL INSTALLATION

- Mechanical Equipment Installation
- Plant Erection & Commissioning
- Piping System Installation
- Equipment Alignment & Testing
- Pre-commissioning & Start-up Support

IIC Group capability delivers full EPC lifecycle from engineering to commissioning in Saudi Arabia

MRO Supply & Engineering Solutions

Integrated Supply and Engineering Solutions for the Industrial, Petrochemical, Refining and Power Sectors

This Division brings world-class European manufacturing capabilities directly to Saudi Arabia through a strategic alliance with Europe's premier industrial equipment manufacturers.

IIC's Six Integrated Capability Pillars

Rotating Equipment

Products: Pumps, Turbines, Compressors, Gearboxes, Couplings, Mechanical Seals, Bearings, Lubrication Systems, Mixers and Agitators

Reliability & Asset Integrity

Services: NDT Inspection, Condition Monitoring, Reliability Assessment, Preventive Maintenance Programs

Static Equipment

Products: Heat Exchangers, Boilers, Pressure Vessels, Reactors, Cooling Towers, Refractory Systems, Industrial Piping Systems

Power & Energy Solutions

Products: Voltage Regulation, Power Quality Monitoring, Fault Detection, Energy Optimization, Renewable Energy Systems

Flow Control Solutions

Products: Industrial Valves, Hydraulic, Pneumatic, Hydraulic Sealing, Flexible Pipeline Systems, Instrumentation Components

Maintenance & Turnaround

Services: Shutdown Support, Turnaround Readiness, Technical Support, Supply Chain Solutions

Rotating Equipment Solutions:

Maximizing Uptime for Demanding Industrial Assets

Pumps, Turbines & Compressors

Centrifugal pumps, reciprocating pumps, steam turbines, gas turbines, centrifugal and reciprocating compressors.

Hydraulic & Pneumatic Systems

Hydraulic systems, Pneumatic systems for industrial automation and control.

Mechanical Components

Gearboxes, Couplings, Mechanical Seals, Bearings, Lubrication Systems.

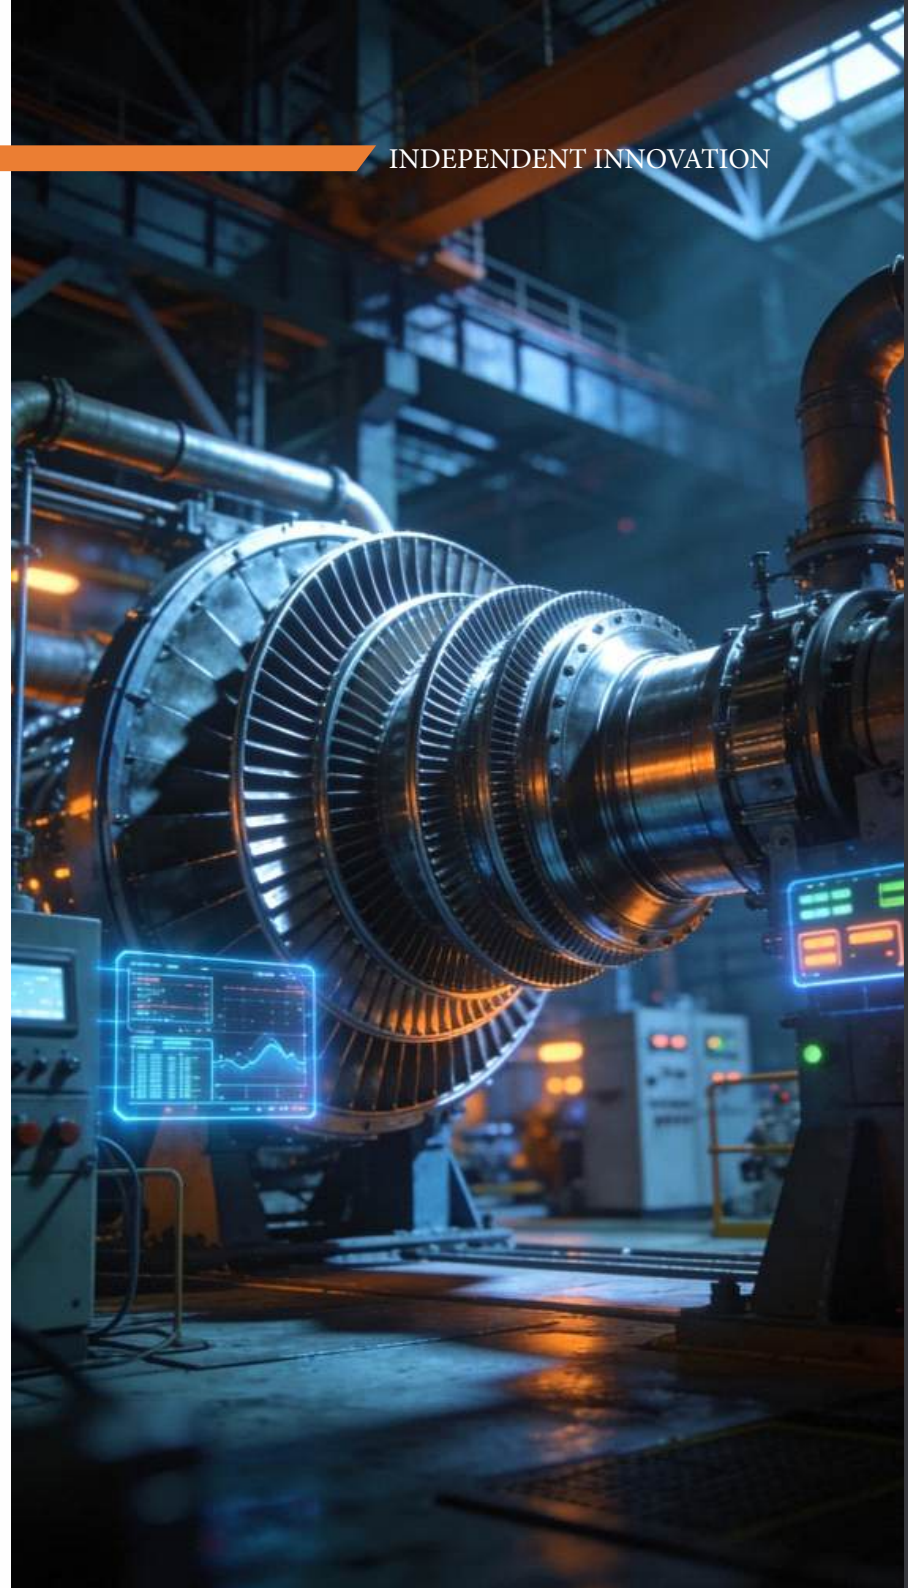

Mixing Equipment

Mixers and Agitators for industrial process applications.

Key Applications

Petrochemical Plants, Refineries, Power Generation Facilities, Water and Utility Plants.

Static Equipment & Flow Control Solutions: Protecting Process Continuity

IIC's Strategic Growth Vision:

The Region's Most Trusted Integrated Industrial Solutions Partner

Integrated Capability Advantage

Comprehensive MRO supply and engineering services under one roof eliminating vendor fragmentation and reducing total cost of ownership.

Supply Chain Resilience

Flexible sourcing network and turnaround & shutdown readiness ensuring availability when it matters most.

Deep Market Understanding

Customer-focused approach built on strong knowledge of petrochemical, refining, power and infrastructure sector requirements.

Technical and Commercial Excellence

End-to-end guidance from feasibility through procurement, execution and post-project reliability review with commitment to quality, reliability and performance.

ELECTRICAL & INSTRUMENTATION SERVICES

Independent Innovation Company (IIC) delivers integrated electrical and instrumentation (E&I) solutions for industrial, commercial, and infrastructure projects across the Kingdom of Saudi Arabia. With a focus on safety, precision, and regulatory compliance, our services support a wide range of operations — from power distribution and process electrification to instrument calibration and shutdown support. All our work is executed in full adherence to SEC, IEC, NEC, and NFPA standards, ensuring high-reliability systems tailored for mission-critical environments such as oil & gas, petrochemicals, utilities, and manufacturing plants. Our commissioning, validation, and maintenance services ensure seamless startup and long-term performance of both electrical and instrumentation systems.

ELECTRICAL SERVICES :

- Power Distribution Systems Installation
- Grounding & Earthing Solutions (SEC & IEC compliant)
- Process Electrification for Industrial Operations
- Cable Raceway Systems – Trays, Conduits, Trunking
- HVAC Electrical Integration (Panels, Motors, Controls)
- Lightning Protection & Surge Suppression Systems
- Fire Detection & Alarm System Electrification

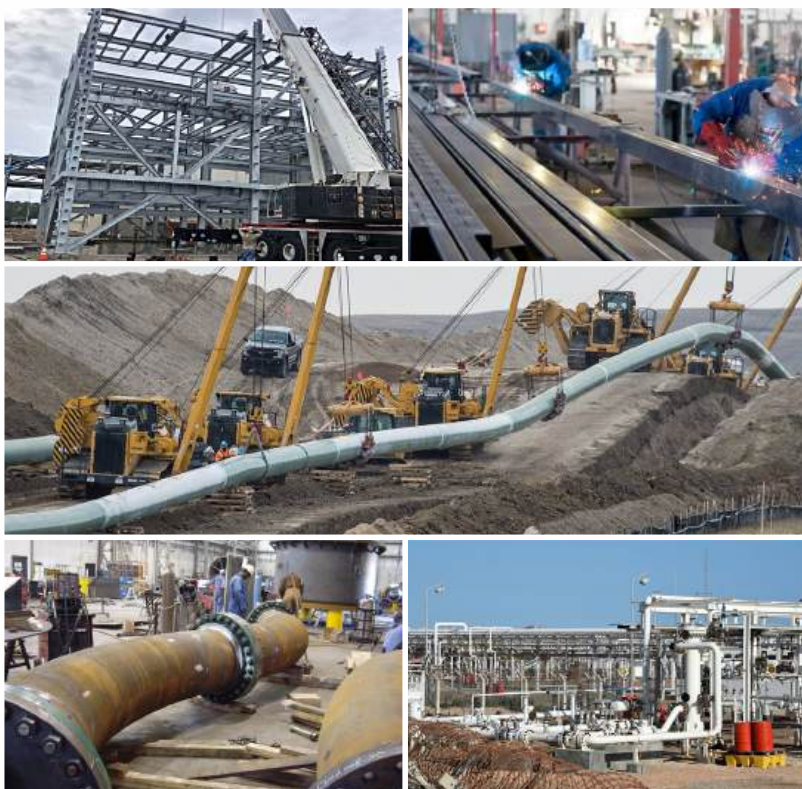

INSTRUMENTATION SERVICES :

- Calibration of Field Instruments (Pressure, Flow, Temperature, etc.)
- Flow Meter Verification, Validation & Documentation
- Pre-Commissioning, Loop Checking & Startup Support
- Fault Diagnosis, Troubleshooting & On-Site Instrument Repair
- Instrumentation Consultancy – Design Optimization & Selection
- Field Instrument Support During Shutdowns & Turnarounds
- Safety Valve (PSV/PRV) Support and Dismantling Services

MECHANICAL CONSTRUCTION

Independent Innovation Company (IIC) delivers end-to-end mechanical construction and maintenance services, engineered to meet the demands of Saudi Arabia's energy, industrial, and infrastructure sectors. With a strong focus on precision, compliance with international standards, and operational efficiency, we support critical facilities across oil & gas, petrochemicals, power, mining, and utilities. Every project is delivered with the highest levels of HSE compliance, QA/QC protocols, and project control systems in line with Saudi market expectations.

OUR SPECIALIZED MECHANICAL SERVICES INCLUDE:

- Steel Structure Fabrication & Erection
- Spool Fabrication & Installation
- Piping Systems & Mechanical Equipment Installation
- Hydro Testing, Pre-Commissioning & Commissioning
- Design & Installation of Firefighting Systems
- Design & Installation of HVAC Systems
- Advanced Welding & Fabrication (SS, CS, Duplex, Inconel, Alloy Steel, Aluminum)
- Mechanical LSTK (Lumpsum Turnkey) Projects
- Design, Fabrication and Erection of Pressure Vessels / Heat Exchangers
- Repair/modification of Pressure Vessels / Heat Exchangers
- Construction / Repair of Storage Tanks

CIVIL CONSTRUCTION

Independent Innovation Company (IIC) specializes in delivering comprehensive civil construction and maintenance solutions tailored to meet a wide range of project requirements. With a strong commitment to safety, quality, and regulatory compliance, we offer end-to-end execution from planning to final handover. We have strategically completed several LSTK (Lump Sum Turnkey) projects with our leading clients such as Saudi Aramco, SABIC, MA'ADEN, and other major entities across the Kingdom. Our expertise ensures timely delivery and excellence across all phases of infrastructure development.

OUR SPECIALIZED CIVIL SERVICES INCLUDE:

- Civil LSTK Projects – including Engineering, Procurement, and Construction (EPC) execution
- Site Preparation, Landscaping & Asphaltting
- Structural Works & Concrete Surface Repairs/Maintenance
- Building Construction, Temporary Facilities & All Types of Renovation
- Supply and Installation of All Types of Fencing Systems (Industrial & Perimeter)
- Roof Insulation, Waterproofing Solutions & Controlled Demolition Works
- Sunshade Structures & Parking Canopy Installation and Maintenance
- All Types of Door Works – including Sliding, Fire-Rated (FR), and Security Doors
- Underground and above ground non metallic piping services
- Dewatering Services – temporary and long-term solutions for site drainage and safety

IT SOLUTIONS

Empowering Digital Transformation

At Independent Innovation Co. (IIC), we deliver comprehensive and future-ready IT solutions designed to enhance operational efficiency, security, and digital capability across diverse industries. Our commitment to innovation, quality, and reliability has positioned us as a trusted technology partner for major infrastructure and aviation projects.

One of our flagship achievements is the successful completion of the **Design, Installation, Integration, and Facilitation of the Automated Passport E-Gates System at King Fahd International Airport, Dammam (DACO)**.

This project involved complete ICT infrastructure development, electrical works, civil and architectural coordination, system integration, and commissioning of advanced border-control technologies. IIC ensured seamless collaboration with stakeholders, zero-interruption implementation, and full compliance with ICAO, SBC, GID, GACA, Customs, NIC, Jawazat, NFPA, and international security standards.

Through this project, we demonstrated our capability to deliver **mission-critical IT systems** with precision, speed, and uncompromised safety.

OUR CORE IT CAPABILITIES INCLUDE:

1. ICT Infrastructure & Networking

- Structured cabling (fibre & copper)
- Data centre setup
- Network design, configuration & optimization

2. System Integration & Smart Solutions

- Airport E-Gate & Border Control Systems
- Access control & biometric systems
- CCTV & security monitoring
- GPS With PTA Installation

3. Cybersecurity & Data Protection

- Firewalls & intrusion prevention
- Identity & access management
- Backup & disaster recovery

4. Managed IT & Technical Support

- 24/7 remote & onsite support
- System monitoring & maintenance
- Incident response & troubleshooting

At IIC, we combine engineering expertise with advanced technology to deliver secure and scalable digital solutions. Our certified team ensures every project is executed with precision, safety, and complete client satisfaction

IIC – Building Smart, Secure, and Connected Environments.

become invalid on the due date. The client should send a proposed date for each surveillance audit at least 15 days before the
due date at the email given below. Recertification audit shall be conducted three months before expiration date.*

The validity of this certificate is contingent upon the condition that the client has understood & agreed and shall abide by contract agreement, certification agreement, Master agreement for certification services and logo rules as given on our website. It applies only to the documentation maintained by the client and it does not substitute the design or product testing or examination procedures, whatsoever. The certificate remains valid until the manufacturing conditions and the quality systems are not changed. This certificate validity is subject to positive results of surveillance audit. This certificate is the property of Bluestar Management Systems. The validity of this certificate can be verified at Bluestar, UAF & IAF Website.
